IN THE CLAIMS

Please cancel claim 1 without prejudice or disclaimer and amend the claim 2 as follows:

1.   (Canceled)

2.   (Currently Amended) A method for receiving data from a wireless network, the method comprising:

receiving a plurality of network data packets from a wireless network;

determining if the plurality of network data packets include erroneous data, and if so correcting the erroneous data;

aggregating the plurality of network data packets into a single protocol data unit; and

providing the protocol data unit to a network layer.
